

#RunwithSolo

ABOUT SOLOMON

Solomon Musyimi is a Houston based lawyer. Besides practicing Law, he has a passion for running and has participated in a few marathons and numerous half marathons. Solomon has directed this passion for running to the philanthropic work that he has done over the years. As the President of Care for A Child's Heart (CFACH), a registered non-profit organization in the U.S., he has committed to run two thousand and twenty kilometers (2,020 KMS – 1,254 Miles) in 2020.

ABOUT CFACH

Congenital Heart Disease afflicts thousands of children Developing Countries. CFACH is an organization whose mission is to facilitate and coordinate medical support programs for marginalized children that are affected by heart disease.

The main goals of the organization are:

- To provide financial and moral support to families of children suffering from heart defects.
- To arrange medical support programs for children with heart diseases.
- To provide accommodations at its Family Support Center in Nairobi avail the family support center for children and their parents
- To conduct surgeries for children with congenital heart defects.

To date, the Organization has facilitated over two hundred and ten (210) heart surgeries, over five hundred (500) children have received medical care and over four hundred (400) children have been housed at the Family Support Center in Nairobi, Kenya. Our goal in the Post-Covid era is to facilitate at least twenty surgeries for patients in Kenya and the surrounding countries before the end of the year.

A RUN FOR A NOBLE CAUSE

As a father of three children, Solomon Musyimi passionately believes that every life is precious. He has met with parents who are dealing with children with heart disease and he believes that everything that can be done to restore the health of ailing children should be done.

In keeping with this belief, Solomon Musyimi, has initiated a bold fundraising goal of raising fifty thousand dollars (\$50,000.00) by running two thousand and twenty kilometers (2,020 KMS – 1,254 Miles) in 2020.

Since January 2020, he has run over nine hundred (900) kilometers. He is determined to complete the full distance before the end of 2020. Every donation received shall be used for the Family Support Center and to subsidize the Pre and Post-Operative Costs for the patients.
